Subject: Further Consultation OCC Mineral and Waste Core Strategy 2031

I am aware that I have not responded by due date to the recent consultation on the draft Minerals and Waste Core Strategy 2031.

I remain totally opposed in the completely groundless level of the LAA proposed (I endorse Julie Alers-Hankey's response) and as sadly expressed in previous consultation responses, I have severe doubts as to the soundness of your draft on a large number of points.(September 19-30th. in Oxford)

I will be responding to the EIP and intend to speak to ensure my concerns are clearly heard by the Inspector, to whom I would be grateful if you would forward this response.

Regards

Charles Mathew

Oxfordshire County Councillor for the division of Eynsham (West Oxfordshire)
