Subject: Minerals and Waste Local Plan Update - Clanfield and Bampton area

Dear Mr Day

We have read and thoroughly agree with the comments put forward by John Bowler on behalf of AGGROW.

We moved to Bampton eighteen months ago and we chose this location because of the pleasant rural environment and good facilities in the village. The area attracts a lot of tourists and we feel that the huge amount of lorry traffic which any quarrying in the vicinity would produce can only be detrimental and extremely harmful to this area. Surely Oxfordshire authorities need to protect the attractive nature of their Cotswold stone villages to sustain the tourism which is vital to us all.

The Government Inspector raised no problem with the exclusion of the Clanfield/Bampton area in his public hearing last November and we ask for OCC's support to ensure there is no change to this decision.

Yours sincerely

Richard and Julie Smith
