To: Minerals and Waste Plan Consultation - E&E
Subject: Minerals and Waste Consultation

Sutton Courtenay Parish Council would raise 2 concerns in regards to the Minerals and Waste consultation

1. Counties should be encouraged to deal with their own waste and not to transport it elsewhere. Restrictions should be imposed on taking in refuse from outside of the area. The Parish Council would therefore ask the county council to look more closely at the proximity principle.
2. There have been weaknesses in the past in allowing planning consents to extend the life of the Sutton Courtenay landfill site beyond the end date already agreed. Future applications which attempt to extend the end date should be refused.
