Part or policy no. or paragraph

The whole document

2(b) Do you consider the Oxfordshire Minerals and Waste Local Plan Core Strategy is: (tick as appropriate)

- (i) Legally compliant? Yes No
- (ii) Sound? Yes No

If you have answered **No** to question 2(b)(ii), please continue to question 2(c). In all other cases, please go to question 2(d).

2(c) Do you consider the Oxfordshire Minerals and Waste Core Strategy is unsound because it is not: (tick as appropriate)

- (i) Positively prepared
- (ii) Justified
- (iii) Effective
- (iv) Consistent with national policy

On the following pages, please set out why you think the Minerals and Waste Local Plan Core Strategy is legally non-compliant and/or unsound and any changes you are suggesting should be made to it that would make it legally compliant or sound.

Please note your representation should include as succinctly as possible all the information and evidence necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations based on your representation at this stage. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

2(d) Please give details of why you consider the Oxfordshire Minerals and Waste Local Plan Core Strategy is not legally compliant or is unsound. Please be as precise as possible.

If you agree that the Oxfordshire Minerals and Waste Local Plan Core Strategy is legally compliant and/or sound and wish to support this, please also use this box to set out your comments.

I have seen the Gardner Representation produced by Gardner Planning on behalf of OXAGE and fully support the points made.

I am concerned that OCC did not consult parish councils and the public generally when it increased the LAA (the number of tons of gravel required in the plan) even though it consulted mineral producers towards the end of 2014. The public were deprived of an opportunity to question the methods used in the calculation and the outcome reached by OCC.

OCC's plan is not compliant with government guidelines (the NPPF): OCC suggest that they can leave site allocations until a later stage but at the same time indicate, without any formal supporting evidence, that the preferred area for allocations will be Southern Oxfordshire. They should indicate potential sites and set out formal evidence as to why each site has been chosen and why reasonable alternatives have been rejected.

Government guidelines (the NPPF) advise using a historical 10-year average of minerals sales when calculating the LAA a methodology which most neighbouring counties have used. The original LAA proposed by campaign groups in the Hives report used the 10-year average as its basis and was accepted by OCC in 2014. This would have meant that there would be no need for new gravel extraction sites in the county for many years. It is unclear why OCC have now rejected this approach and are seeking the allocation of new greenfield sites. I strongly oppose the plan submitted.

2(e) Please set out the changes(s) you consider necessary to make the Oxfordshire Minerals and Waste Local Plan Core Strategy legally compliant or sound, having regard to the reason you have identified at 2(c) above where this relates to soundness. You should say why this change will make the Core Strategy legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
