Dear Sirs

**OXFORDSHIRE MINERALS AND WASTE LOCAL PLAN: CORE STRATEGY**

This firm acts as managing agents to Corpus Chrisit College, which owns land and mineral reserved within Oxfordshire.

We write in support of the Minerals Planning Vision and Objections set out in paragraph 2.2.1 of the Strategy.

In particular, we believe that sufficient sites should be identified within the Core Strategy to enable a range of operators and to ensure that mineral extraction occurs in a number of locations within the County, resulting in reduced haulage of materials to the end user.

We reserve the right to make further comment on the Strategy in due course.

Yours faithfully

Charles Campion  
Director
