Dear Suzi

Further to our conversation, I enclose below a table showing the tonnage per month of waste material (EWC code 17-05-14) which we would like to recycle but cannot due to the planning constraints imposed on our aggregate washing facility at Dix Pit, Stanton Harcourt, dictating a maximum 100,000 tonnes per annum of processing.

We only have figures to August 2015, however a full year from September 2014 – August 2015 contributes an unnecessary 48,849 tonnes of CD&E waste to landfill every year of which 90% could be recycled into sustainable aggregates.
