To: Minerals and Waste Plan Consultation - E&E
Subject: 185003 Oxfordshire Minerals and Waste Core Strategy – Consultation on Additional Documents

Dear Sir/Madam,

Thank you for your consultation on the above dated 29th April 2016 which was received via email on the same date.

Natural England notes the additional documents that have been published however our comments on the pre-submission draft of the Oxfordshire Minerals and Waste Core Strategy relates to the wording of policy rather than deficiencies of evidence base. We therefore have no further comments to make in light of this new information.

If you wish to discuss this consultation or the comments that I have made please do not hesitate to contact me using the details set out below.

Kind regards,

Jamie Melvin
Planning Lead Adviser – West Anglia
Natural England, County Hall, Spetchley Road, Worcester WR5 2NP

<http://www.gov.uk/natural-england>

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

In an effort to reduce Natural England's carbon footprint I will, wherever possible, avoid travelling to meetings and attend via audio, video or web conferencing.

Natural England offers two chargeable services – The Discretionary Advice Service ([DAS](#)) provides pre-application, pre-determination and post-consent advice on proposals to developers and consultants as well as pre-licensing species advice and pre-assent and consent advice. The Pre-submission Screening Service ([PSS](#)) provides advice for protected species mitigation licence applications.

These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, reduce the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.
